
BUY A LIVE ALLICATOR.

Extra Jaw.

THE ELGIN WRENCH.

The best general purpose wrench on the market. It will turn a nut, hold a pipe or twist a rod. It is not clumsy, but flat and neat. It is the only adjustable wrench (with its range of work) that can be conveniently carried in the pocket. When jaws wear out, old ones can be replaced with new. Nickel plated and perfectly constructed. Write us for prices.

The Elgin Adjustable Wrench.

The new Elgin adjustable wrench, which is herewith illustrated, is adapted to general purposes, as will be observed by the shape of the jaws; it will turn a nut, hold

Elgin Adjustable Wrench.

a pipe or twist a rod. It is shaped like the old fashioned alligator wrench, having one jaw notched so that it will hold without slipping. It is made so that the notched jaw can be replaced if necessary. The illustration shows the jaw separated from the wrench. It is flat and neat, so that it can go into holes which other wrenches cannot
